EXAMINER'S AMENDMENT

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicants, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it must be submitted no later than the payment of the issue fee.

Authorization for this Examiner's Amendment was given in a telephone interview with William J. Daley on 08/09/2007.

Please cancel the independent and dependent claims 40-49.

Reasons for Allowance

1. Claims 1-18 and 22-39 will be allowed.
2. The following is an examiner's statement of reasons for allowance.

The prior art references most closely resembling the applications claimed invention are Stolfo et al (U.S.2004/0002903) and Wood et al (U.S. 6,609,198).

First Stolfo discloses communications and/or transactions can be carried out between a user or first party, typically a consumer, and a second party, typically a merchant, over a communication

Art Unit: 2145

network in which information is provided and/or a good is ordered while securing such information of the first part with respect to at least the second party. But Stolfo did not disclose, "allowing said user to use said user has all rights and privileges of said administrator while acting as proxy for said administrator based on one or more credentials of said user but not the one or more credentials of said administrator, wherein said user has all rights and privileges of said administrator while acting as proxy for said administrator"(claims 1,24,32).

Second Wood discloses single logon for accessing multiple resources does not allow a user to act as proxy for an administrator. When the user in Wood logs on and accesses a first resource and subsequently accesses a second resource and so on, the user accesses all of the resource as himself. But Wood did not disclose, "allowing said user to use said user has all rights and privileges of said administrator while acting as proxy for said administrator based on one or more credentials of said user but not the one or more credentials of said administrator, wherein said user has all rights and privileges of said administrator while acting as proxy for said administrator"(claims 1,24,32).

In summary, the Examiner submits that there is no motivation to combine the aforementioned references; therefore, claims 1-18 and 22-39 have been deemed allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
